CANNABIS INDUSTRY SOLUTIONS

ABOUT US

MC Strategic Solutions is a women owned small consulting company who helps business find success with the emerging industry needs.

Whether you require 1-1 consultation on strategy, manufacturing, compliance, training or development, MC Consulting & Co. can help.

With over 15 years of experience in our team, we have helped multiple fortune 500 organizations to small startup companies in developing new products, scale-up, auditing, training, expansions, technology transfer, regulatory remediation, cGxP implementation, and ISO readiness.

As an emerging industry with regulations in constant development, new challenges must be addressed.

With more competition and requirements, the most competitive organizations are adopting the implementation of Good Manufacturing Practices (GMPs) and Quality Management System (QMS). Navigating and implementing these systems and regulations can be challenging and confusing.

Our consultants specializes in cGMP and QMS implementations, from development of systems, documentations, facilities requirements, sampling plans, validations, remediation, and submissions to training and product development.

We are experienced in the Cannabis industry and understand your challenges and limitations and opportunities.

Contact us today for a complimentary brief evaluation of your systems and needs.

What we can do for you?

Label Design and Review

- design - content - style - development - improvement
- remediation

Ingredient Safety (for those with edibles and topicals)

- ingredient safety evaluation prior market - formula evaluation and recommendations.

Claims Review (* this is the most common reason of warning letters in the industry)

Remember that claims in your product will define the intended use and is what FDA will evaluate to determine if your product is a cosmetic, food, supplement, or a drug.

We review all your products claims (for structure function and other type of claims) including:

- labels - website - social media - promotional material

Documentation and Systems Development

These are one of the most challenging tasks for new industries. We can create all your policies, documentation, and records required to leave your organization complying with GMP requirements and/or ISO certification. We have a team of certified Lead auditors that can support, create and train your organisation to the best standards.

Product Development

- concept/idea definition - branding - ingredients and packaging sourcing - label development - lab and contract manufacturing identification support - project management - submissions - and more.

Operations Systems Implementation

- Laboratory Operations - from GMP to ISO readiness
- Investigations, Non -conforming, CAPA, Complaints, calibration systems, tracking, returns, recall, etc.

Vendor/Supplier Auditing

- cultivators - packagers - raw material supplier - equipment - laboratories - distributors - etc.
